

POWER A

PALFINGER

LIFETIME EXCELLENCE

**MORE POWER FOR CONSTRUCTION. THE
POWER HOOKLOADER GUARANTEES VER-
SATILE AND POWERFUL CONTAINER
HANDLING.**

05

HIGHLIGHTS

CASTED PARTS

Casted parts such as hook, rear pivots, hinge supports, rear pulleys provide longevity and robustness.

ARTICULATED ARM

The articulated hook arm has the lowest possible loading curve.

UNDER FLOOR LOADING

The perfect triangle of forces in loading position allows a deep under floor loading.

CONTROLS

The cab controls are ergonomic and intuitive.

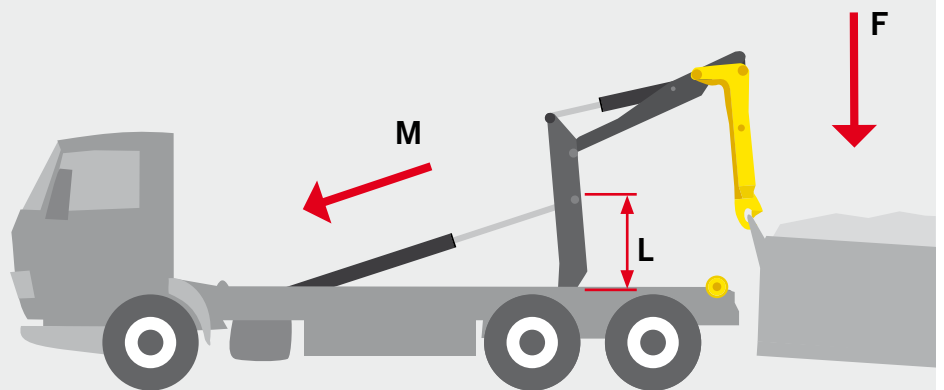

POP – PALFINGER ORIGIN PROTECTION

Before assembling the main components are sand-blasted, degreased, primer painted and electro statically final coated (according to customer specification). All other parts are anticorrosion treated.

- Articulated hook arm system
- Optimum cylinder position
- Necessary power reserves
- Power for container loading
- Heavy duty design for tough applications

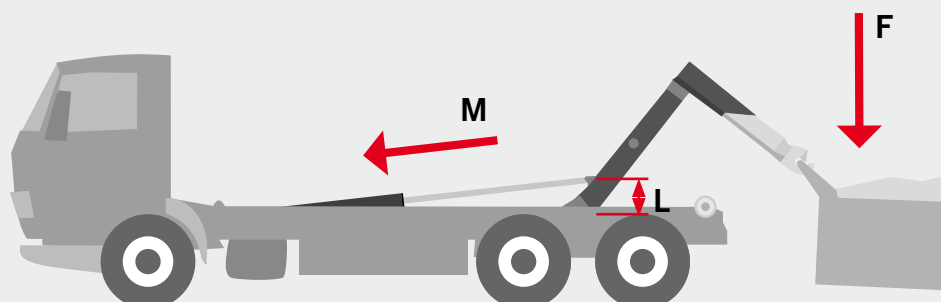

POWER A HOOKLOADER

The optimum cylinder position ensures its enormous power. Up to 60 % more POWER than a standard hookloader.

STANDARD HOOKLOADER

The flat cylinder position in container loading phase requires a lot of lifting capacity for a standard hookloader.

ABOUT THE POWER A VERSATILE, POWERFULL, ECONOMIC

The mini excavator must be taken to the building site.

A container with building rubble is picked up.

A load of gravel is dumped.

Concrete formwork is delivered to the building site.

The wheelloader is loaded.

The building site is cleared.

THE POWER A ONE FOR ALL

REPLACES A DUMP TRUCK

POWER A hookloader

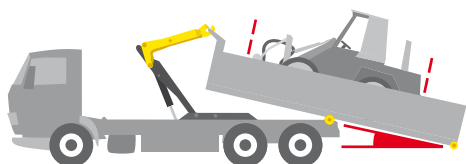

Dump truck

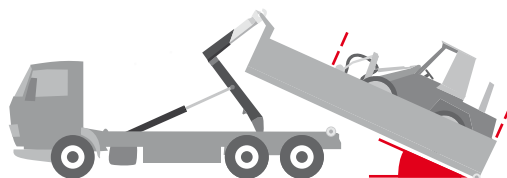

AVOIDS ANY SLIPPING OF A LOAD

POWER A hookloader
